

BEFORE YOU BEGIN

- Please read these instructions carefully to familiarize yourself with the required tools, materials, and installation sequences. Follow the sections that pertain to your particular installation. This will help you avoid costly mistakes. In addition to proper installation, read all operating and safety instructions.
- All information is based on the latest product information available at the time of publication. Kohler China Ltd. reserves the right to make changes in product characteristics, packaging, or availability at any time without notice.
- These instructions contain important care, cleaning, and warranty information-**please leave these instructions for the consumer.**

安装之前

- 请仔细阅读此说明书以熟悉所需要的工具、材料及安装顺序。遵循适合您的特定安装要求的各项内容，避免昂贵的损失。除了要正确安装外，还应阅读操作及安全说明。
- 所有的资料是按最新出版的产品资料编写而成。科勒中国有限公司保留任何时候无须通知即可改变产品特性、包装或产品可供类型的权利。
- 说明书包括重要的保养、清洁及担保方面的内容，请把这些资料交给用户阅读。

INSTALLATION

- Clean the bath surface to remove any soap film or oils.
- Carefully lay the bath pillow on the ends of the bathtub.
- Check to make sure that the pillow is attached firmly to the bath.

安装

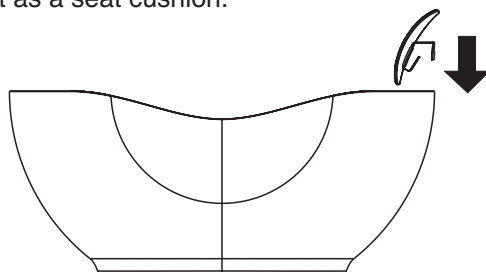

- 清洁浴缸表面，去除残留清洁剂或油污。
- 小心地将浴枕放在浴缸两端。
- 检查浴枕是否已与浴缸完全贴合。

CAUTION: Risk of product damage. Do not submerge the pillow, or use it as a seat cushion.

警告：请勿将浴枕完全浸没于水中或作为座垫。

CARE AND CLEANING OF YOUR PILLOW

The bath pillow is made by LITHOCAST. Please care and clean the bath pillow by the following points:

1. Do not put objects with high temperature on the bath pillow directly or for a long time.

- Although LITHOCAST bath pillow is heat-resisting, its surface will still be damaged under too high a temperature. Kettles containing boiling water or other objects with too high a temperature are likely to cause damage to the surface of the bath pillow.
- Please control water temperature of the water to the bath pillow under 50°C.

清洁与保养

浴枕的主体材料是绮美石。请按以下方法使用和保养浴枕。

1. 请不要将高温物体直接或长久搁放在浴枕上。

- 虽然绮美石浴枕能耐热但是过高的温度还是会伤害浴枕表面。如直接从灶台上取下的热壶或者其它温度过高的用具等有可能会给浴枕表面带来损害。
- 请把与浴枕接触的水的水温控制在50°C以下。

2. Spots caused by scratching, common chemicals, burning and slight knocks.

- Spots caused by nicks, scratching and burning are unavoidable for frequently used LITHOCAST bath pillow. However, since LITHOCAST is solid from inside to outside, the spots can be removed by using the following methods:
- Spots caused by scratching, common chemicals, burning and slight knocks can all be removed by using Scotch brand cleaning pad. Slight sanding is necessary for severer damages, and the following steps are needed:
 - 1) Wash the surface with clean water to ensure it is dustless.
 - 2) Use 600 # waterproof abrasive paper to sand the surface, and then use 1200# abrasive paper to polish the surface.
 - 3) Wipe away the water with a piece of dry cloth.
 - 4) Moisten the surface first to avoid dirt.

Note: Must keep the surface wet while sanding it.

3. Keep the surface dry

Water contains large amounts of bleaching agents and incrustation. Therefore, it will affect the color and appearance of the bath pillow if it stays on the surface for a long time.

4. Keep the surface away from strong chemicals

- LITHOCAST is damage-resisting, but strong chemicals are not allowed to contact its surface. Paint-removing detergents, metal cleaning detergents, stove cleaning detergents, methylene chloride, acetone (like nail enamel remover) and strong acid detergents shall be avoided.
- If the surface contacts the above-mentioned detergents, please immediately wash it with soap water.
- If the surface is spotted by nail enamel, please clean it with acetone free detergents and then wash it with water.

5. Protect the surface from being knocked by overweight or sharp-ended objects.

6. Product renovation

In case the bath pillow surface is scratched or tarnished due to long time of use, please ask professionals to polish the surface, which will restore its original look.

2. 刮伤、一般或化学污点、灼伤或烧伤以及小撞击所造成的痕迹。

- 对于经常使用的绮美石浴枕，无法避免刻痕、刮伤与烧伤。但因为绮美石从里到外都是实心一体的，因此可轻易依下列方式回复原貌：
- 刮伤、一般或化学污点、灼伤或烧伤以及小撞击所造成的轻微痕迹，都可以在现场用「思高」*牌清洁垫来打磨修复。对于较严重的损伤，必须稍微沙光。您应遵照下列步骤：
 - 1) 用清水清洗表面，确保没有灰尘。
 - 2) 用600号水磨砂纸打磨表面，再用1200号砂纸打磨表面使其光滑。
 - 3) 用干布将水擦去。
 - 4) 为了减少灰尘，开始前先将表面弄湿。

注意：打磨时必须是水磨，不可以干磨。

3. 浴枕表面尽量保持干燥

因为水中含有大量的漂白剂和水垢，停留时间过久后，会污染浴枕颜色，影响美观。

4. 严防烈性化学品接触浴枕表面

- 绮美石具有持久抗伤害能力，但仍需避免与烈性化学品接触，例如去油漆剂、金属清洗剂、炉灶清洗剂。不要接触亚甲基氯化物、丙酮（去指甲油剂）、强酸清洗剂。
- 若不慎与以上物品接触，立即用大量肥皂水冲洗人造石表面。
- 若沾上指甲油请用不含丙酮的清洗剂（如：天那水、酒精）清洗，再用水冲。

5. 不要让过重或尖锐物体直接冲击表面。

6. 产品翻新

由于不同原因使浴枕有较多划痕时，或由于使用时间较长，表面变暗变旧时。请您寻求专业技术人员帮助，打磨可使浴枕回复原貌。
