INSTALLATION INSTRUCTIONS

99945T-CL Contemporary Round 8" Rainhead with katalyst-air induction technology
99946T-CL Contemporary Square 8" Rainhead with katalyst-air induction technology

BEFORE YOU BEGIN

All information is based on the latest product information available at the time of publication. Kohler Co. reserves the right to make changes in product characteristics, packaging, or availability at any time without notice.

Please leave these instructions for the consumer. They contain important information.

NOTES:

1. Flush the water supply pipes thoroughly to remove debris.
2. Recommended working pressure: 2 to 5 bar.
3. The highest working pressure for spray is 0.5MPa(5bar). If it exceeds 0.5MPa(5bar), a pressure reducer is needed. The highest water and environment temperature is 60°C. Please keep handspray, shower head and the shower arm away from heater, or it may become damaged and cause injury to the user.

STANDARD APPLICABLE

Special model meets or exceeds the following at date of manufacture: TIS

ROUGH-IN DIMENSIONS

99945T-CL

99946T-CL

INSTALLATION

Flush both water supplies through the shower arm(2, not provided) for about one minute before the showerhead(1) is installed. Apply tape or sealant to the exposed end of the shower arm. Tighten the showerhead with a strap wrench.

Before installation, install restrictor(3) if needed. Take out washer(4) and install restrictor as the figure shown, reinstall washer.

How to Clean the Nozzle

Any debris or mineral build-up may cause the flow stream to become distorted or reduce the flowrate. To remove the debris or mineral build-up, run water through the shower head, firmly press or rub your finger back and forth across the rubber nozzles.

CLEANING INSTRUCTIONS

All Finishes: Clean the finish with mild soap and warm water. Wipe entire surface completely dry with clean soft cloth. Many cleaners may contain chemicals, such as ammonia, chlorine, toilet cleaner etc, which could adversely affect the finish and are not recommended for cleaning.

Do not use abrasive cleaners or solvents on Kohler faucets and fittings.
