CUT-OUT TEMPLATE / INSTALLATION INSTRUCTIONS

BEFORE YOU BEGIN

- Observe all local plumbing and building codes.
- Inspect the waste and supply tubing; replace if necessary.
- Prior to installation, unpack the new lavatory and carefully inspect it for damage. Return the lavatory to its protective carton until you are ready to install it.
- For replacement installations, make sure the existing cutout is the same or smaller size as the new lavatory.
- Use the template supplied with the lavatory to mark correct size cutout.
- Kohler lavatory is made according to American National Standard that it can match the American lavatory fittings. Any other lavatory fittings may not fit for Kohler lavatory.
- Fixture dimensions are nominal and conform to tolerances established by ASME Standards (A112.19.2-2018).
- Need to match the lifting rod type small cover water dropper, if the length of the lifting rod faucet is not enough, please purchase another accessory 880089-CP to cooperate with the installation.

INSTALL NEW LAVATORY

- Cut the template on the cutout line.
- Locate the installation position. Make sure the overflow hole is on the front of the countertop and the logo is on the faucet side.
- Position the template on the countertop to ensure clearance between the lavatory, faucet, and back splash.
- Verify cabinet clearance beneath the countertop.
- Trace the template on the countertop with a pencil.
- Re-check the clearance between the lavatory, faucet, back splash, and cabinet. Adjust the template accordingly.
- Drill a 13mm hole on the inside of the cutout opening.
- Cut the opening in the countertop along the inside edge of the pencil line.
- Correct cut the tap mounting hole according to the tap and countertop dimensions.
- Temporally position the lavatory in the opening and adjust to fit.
 - ⚠ **CAUTION: Risk of personal injury or product damage.** Large lavatories are very Get help lifting the lavatory into place.
- Trace a pencil line around the outside edge of the lavatory.
- Remove the lavatory.
- Install the faucet and drain according to the manufacturers instructions.
- Apply two beads of sealant to the inside of the pencil line.
- Spread the sealant evenly with a putty knife.
- Carefully position the lavatory in the cutout, and press down firmly.
 - ⚠ **CAUTION: Risk of personal injury or product damage.** Large lavatories are very Get help lifting the lavatory into place.
- Immediately wipe away any excess sealant, and fill any voids as needed.
- Verify that the lavatory has not moved out of position.
- Allow the sealant to cure for at least 30 minutes before proceeding.
- Connect the faucet supply lines.
- Connect the drain assembly.
- Install the decorative cap in the installation groove.
- Open the faucet valves, and check for leakage.
- Clean up with a non-abrasive cleaner.
