

Features

- Includes valve body, pressure balance cartridge, rough-in guide, and mudguard.
- ½" PEX Expansion (F1960 style) inlets, with stops.
- 1/2" Universal NPT & direct sweat outlets.
- Service stops include integral check valves.
- 5.0 gpm (18.9 l/min) maximum flow rate at 45 psi.
- Single lever design cycles from off through cold to hot.
- Provides anti-scald protection and temperature regulation.
- One-piece cartridge design simplifies installation and maintenance.
- Adjustable high-temperature limit stop to control maximum water temperature.
- Requires valve trim to complete installation (sold separately).
- Pressure-balancing diaphragm technology maintains outlet temperature within +/-3°F during water pressure fluctuations.

Material

- Forged dezincification-resistant brass body provides long term reliability and resistance to aggressive water conditions.

Installation

- Designed for use in standard, back-to-back and thin wall installations.
- Valve body features integral mounting locations and symmetrical valve inlets to simplify installation.
- Cartridge is reversible for installations where hot and cold supplies are reversed.
- Rough-in guide designed for both standard and thin wall installations.
- Installed valve rough-in can be flushed and pressure tested to 150 psi max (air or water) without cartridge using K-10351 test cap (included).

Optional Products/Accessories

- K-10350 Deep Rough-In Kit For K-8305 Cartridges
- K-10351 Test cap for K-8300 Series valve bodies

Codes/Standards

KOHLER® Faucet Lifetime Limited Warranty

See website for detailed warranty information.

Technical Information

All product dimensions are nominal.

Shower Valve:

Pressure:	45 psi (3.1 bar)
Maximum (Static) Pressure:	125 psi (8.6 bar)
Minimum (Operating) Pressure:	20 psi (1.4 bar)
Valve body:	Machined-brass

Notes

Install this product according to the installation guide.

Avoid cross-flow conditions. Do not install a shut-off device on either valve outlet.

Cap the shower outlet if the deck-mounted spout, diverter, or handshower is connected to the spout outlet.

Install straight pipe or tube drop of 7" (178 mm) to 18" (457 mm) with single elbow between the valve and the wall-mount spout.

For finished walls greater than 3/4" (19 mm) and less than 1-1/2" (38 mm), install support(s) 2" (51 mm) from the stud face.

For finished walls greater than 1-1/2" (38 mm), install support(s) 3" (76 mm) from the face of the finished wall.
