COLLECTION GUIDE

CONTEXT

The Ann Sacks Context collection is rich in intrinsic beauty and dimensional depth of glazes, crafted in partnership with the celebrated artisans of Tajimi, Japan who employ techniques that date back over 400 years. The ceramic collection of field tiles, mosaic designs, and trims come in an array of finishes from matte, gloss, and metallic glazes that range from the soft, inviting shades of Spa and Mink to the vibrant tones of Jasper and Emerald. Each of the artisan glazes has a unique personality, voice and organic nature that interact with the firing process, resulting in a distinct texture and depth of color when installed.
