## ECO-THINKING

Savoy tiles are made from 21 percent pre-consumer recycled content, including ceramic waste material from discarded clay and smashed tableware. The rest of the tile body is composed of 22 percent clay and 57 percent feldspar.

# GROUT PAIRINGS

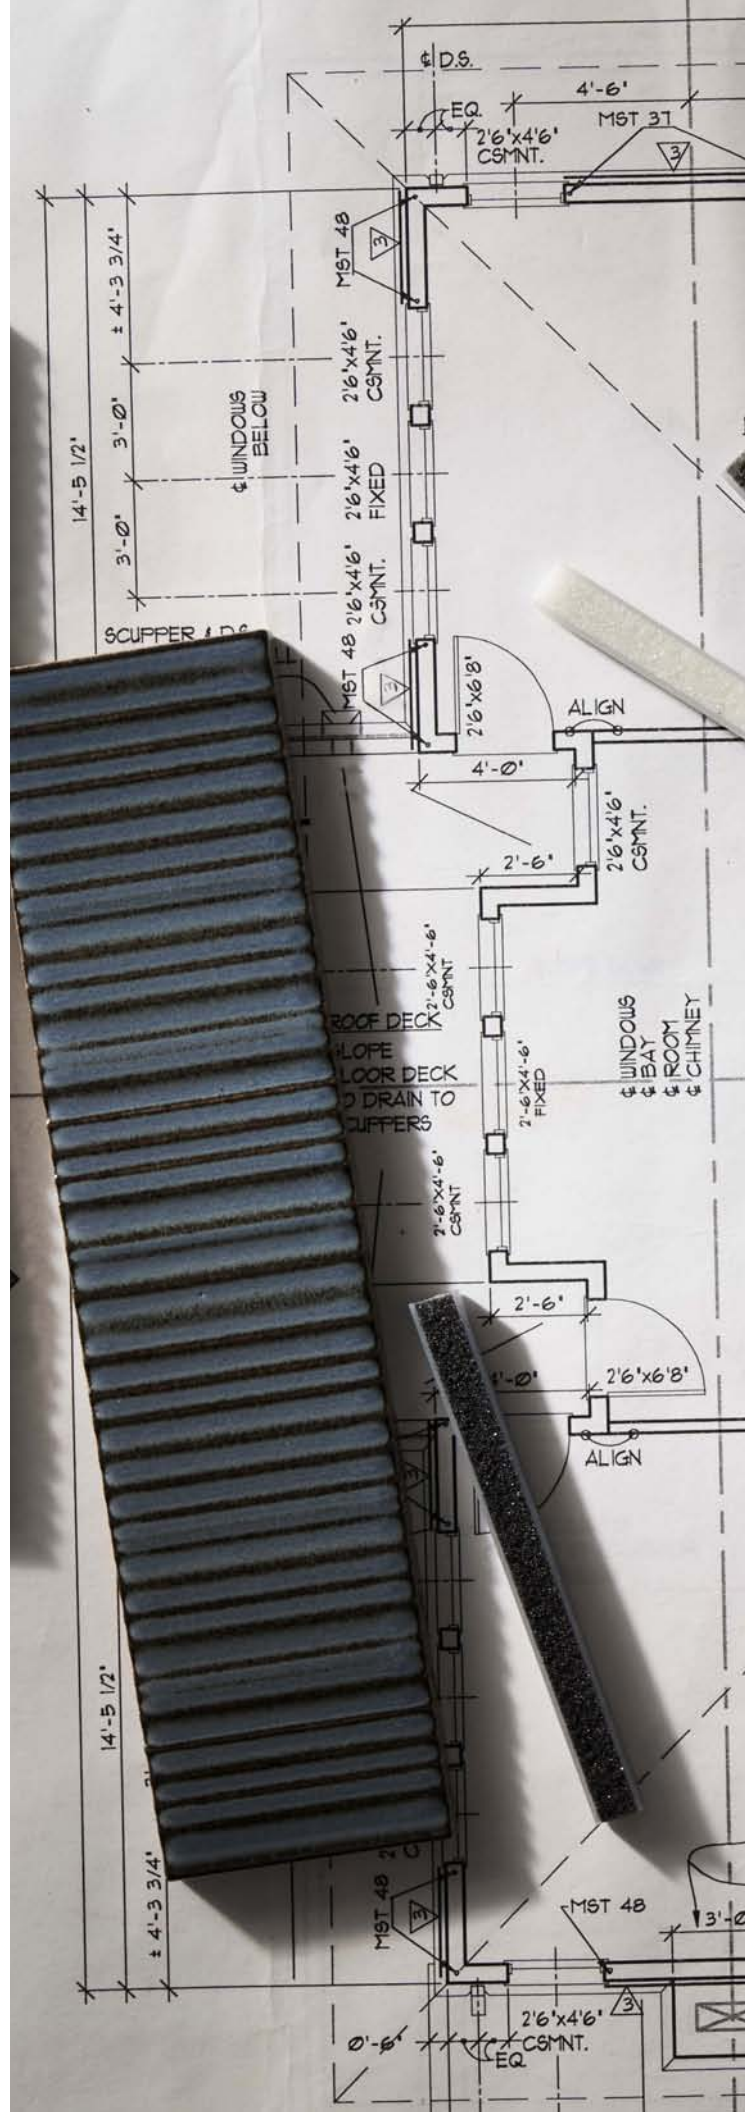

Great grout should enhance the setting of your tile without calling attention to itself. Our patented urethane Context Grout by Bostik is pre-mixed and ready-to-use, installs up to 50% faster than cement grouts and contains BLOCKADE™ antimicrobial protection, which inhibits the growth of bacteria, mold, or mildew on the surface. To best assist in your design process, we recommend these pairings to complement the artisanal glazes of Savoy.
