

The Abstra™ Collection by Kohler WasteLAB™

The Abstra™ Collection by Kohler WasteLAB™ consists of bespoke brushed and matte tiles, handcrafted by Kohler WasteLAB from nearly 100 percent recycled waste materials entirely procured from the Kohler, Wisconsin pottery factory location. The Abstra™ Collection evokes the appearance of carved or sculpted clay with two different styles from which to choose: Abstra™ Feature, which is a series of abstract patterned tile with raised and relief designs and an undulating surface; and Abstra™ Standard, an unadorned field tile with the same undulating surface detail. These works of art lend visual and textural nuance that is sensual and engaging. Featuring an organic palette of colors based in nature, the Feature and Standard designs can be used alone or mixed and matched to create a one-of-a-kind design statement.
