

Rae

The serene blue-green tone of Rae intensifies when wet, making it an enchanting option for wet areas like showers, as well as pools and fountains. Soft, speckled demarcations dance across the honed finish adding to the visual interest of this chameleon-like stone.

RECOMMENDED USE

- Suitable for all indoor wall and flooring applications
- Outdoor use subject to climate and method of installation
- Suitable for submerged applications
- Please see Ann Sacks slip resistance and wet flooring application statement to determine usage in a wet area

INSTALLATION AND MAINTENANCE

- Install per industry standards for natural stone
- Always inspect material prior to installation — installed material cannot be accepted for return or credit. Use constitutes acceptance
- Always dry lay out material prior to installation to properly blend and balance color
- To reduce the possibility of moisture absorption or staining, it is recommended to seal Rae in intermittent wet areas or tile areas not exposed to water. For pools and water features, sealing is not necessary.
- Periodic cleaning and resealing is recommended using products formulated for natural stone
- Rae should be cleaned with a ph-neutral stone cleaner, alkaline-based cleaner, or acid mimic cleaner designed for natural stone
