## INSTALLATION AND MAINTENANCE

- Please reference the TCNA handbook for installation of stone mosaics
- Always inspect material prior to installation — installed material cannot be accepted for return or credit
- Always lay out material prior to installation to properly blend and balance color
- As some white marbles have been known to yellow when they come in contact with epoxy, we advise against installing these marbles with epoxy grout and/or adhesives, or cleaning with epoxy removing cleaners in order to eliminate the potential for yellow discoloration
- It is recommended to seal natural stone with a penetrating sealer
- Periodic cleaning and resealing is recommended, using products formulated for natural stone
