

K-1954

Touchless toilet flush kit

Features

- Retrofits a standard toilet to touchless flush
- Flush is activated by a no-touch sensor mounted inside the tank
- Powered by 4 AA batteries (included)
- Works with most canister and flapper toilets
- Not compatible with dual-flush, top-mount flush, pressure-assist, or ballcock valve toilets
- Simple installation taking most people less than 20 minutes
- Trip lever hole cover included
- Optional hand indicator decal included (indicates where the touchless module is located inside of tank)
- When batteries are low, the unit will beep five times at half-second intervals when activated to indicate it's time to replace them
- Touchless module projects a field through the top of the tank lid that senses your hand, causing the toilet to flush

Codes/Standards

None Applicable

Recommended Products/Accessories

- K-23729 Stainless steel cleaner
-

Technology

- Touchless is compatible with a variety of water usage rates
-

Warranty

See website for detailed warranty information.

KOHLER® One-Year Limited Warranty

Installation Notes

Install this product according to the installation instructions.

CAUTION: Risk of property damage: Do not use lithium ion batteries with this product. Exposing lithium ion batteries to water can result in a fire.

The touchless toilet flush kit is not compatible with the following types of toilets: dual flush, ballcock valve, top actuator, and pressure assist.

To confirm that a flapper style flush valve is compatible, verify there are adequate clearances for the tank and lid as illustrated.

To confirm that a canister style flush valve is compatible, view the compatibility list of toilets found on kohler.com, K-1954 product detail page.
