THE BOLD LOOK OF KOHLER.

Installation Notes

Install this product according to the installation instructions.

NOTE: The K-2956 Persuade bathroom sink is recommended for this vanity. Do not select an under-mount Caxton® model for this vanity, as it is not designed for this vanity.

WARNING: Risk of property damage. Select 250 lbs (113.4 kg) load bearing lag bolts with a length that can safely clear any obstacles in the wall. Calculate the proper length of the lag bolts by adding the following: 1-1/2" (38 mm) bracing + wall board thickness + bracket thickness.

NOTICE: If a bathroom sink will be installed, the plumbing must be roughed into the plumbing cutout area of the vanity. Refer to the bathroom sink roughing-in and the vanity roughing-in for proper placement. The water supply and drain lines must be installed before installing the vanity.
