

WASTELAB  
KOHLER

### Features and Benefits

- At the Kohler WasteLAB, we look for ways to see the world differently. Specifically, we look to nature as a model for sustainable processes. Through nature's cycles of growth and decay, waste simply doesn't exist. The WasteLAB applies such an approach in its manufacturing process, using landfill-bound pottery, wastewater sludge and other forms of waste to design and produce stunning products.
- Appropriate for any design aesthetic
- Ceramic tile body

### Installation and Maintenance

- Install per TCNA Handbook for ceramic tile
- Always inspect material prior to installation – installed material cannot be accepted for return or credit
- Always lay out material prior to installation to properly blend and balance color

### Recommended Use

- Suitable for use in wet areas such as shower walls
- Suitable for indoor wall applications

### Recycled Content

- Utilizes nearly 100% recycled material

### Codes/Standards
