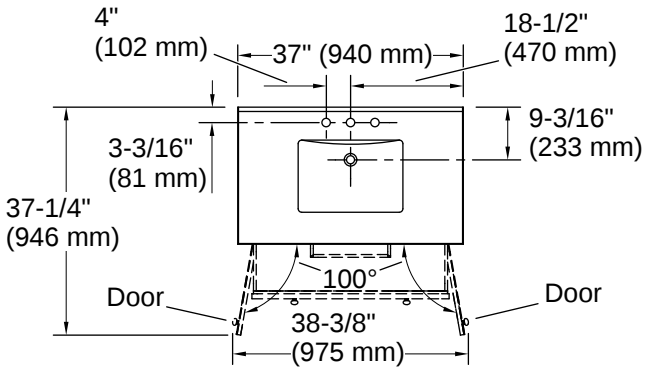
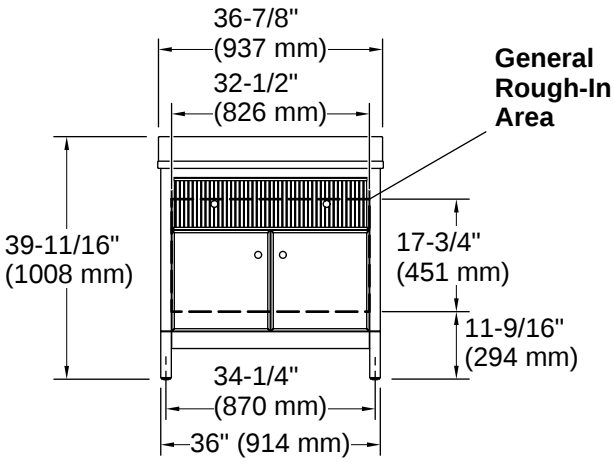
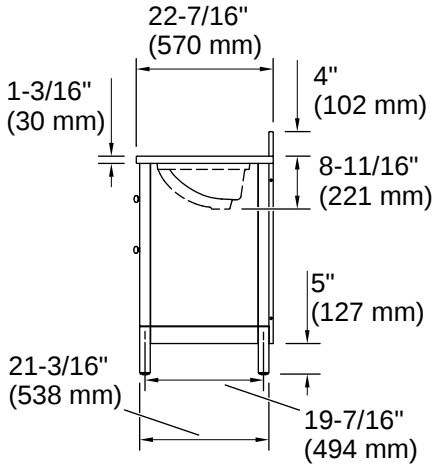
THE BOLD LOOK OF KOHLER.







Installation

- Easy installation – no special tools required
- Sink preinstalled on vanity top to simplify installation

Installation Notes

Install this product according to the installation instructions.

Select the type of fastener based upon the wall material. Two 250 lb (113.4 kg) minimum load bearing fasteners are recommended with a lag bolt of length to clear obstacles in the wall and 5/16" washers. Calculate the proper lag bolt length by adding the 1-1/2" (38 mm) backing material, plus the wallboard thickness, plus the back rail thickness.
