

KOHLER®

Cimarron®
Touchless toilet tank, 1.28 gpf
K-5692

Features

- Flush is activated by a no-touch sensor mounted inside the tank
- Powered by 4 AA batteries (included)
- 1.28 gpf (4.8 lpf)
- When batteries are low, the unit will beep five times at half-second intervals when activated to indicate it's time to replace them
- Combines with the K-4309 bowl to create a complete K-6418 Cimarron toilet
- Coordinates with other products in the Cimarron collection
- Touchless has no impact on water usage
- Touchless module projects a field through the top of the tank lid that senses your hand, causing the toilet to flush
- AquaPiston® canister optimizes the flow out of the tank, harnessing gravity and the natural powerful reducing cascade of water to increase the power and effectiveness of the flush
- Easy-to-flush canister design requires less force to actuate than a 3" (76 mm) flapper, and has 90% less exposed seal material which resists conditions that cause wear, tear, shrinkage and swelling
