Faucet flow rate: 1.5 gal/min (5.7 l/min)

Notes

Install this product according to the installation guide.

Do not locate the faucet in close proximity to a direct heat source or use the faucet as a pot filler. Exposure to excessive heat will damage the integral sprayhead and spout joints and may cause severe discoloration to the carbon fiber tubing.

Special framing and support considerations are required to mount the wall-mount valve.

One 2-3/16" (56 mm) diameter cut-out hole is required for the valve. One 1-3/16" (30 mm) diameter cut-out hole is required for the spout.

ADA compliant for faucet handles only

ADA, CSA B651 compliant when installed to the specific requirements of these regulations.
