Installation Notes

Install this product according to the installation instructions.

Measure your actual product for rough-in details.

Corner joints (optional) allow for 3/8" (10 mm) adjustment for out-of-plumb conditions or uneven cuts.

If installing accessories, install 2x4 backing for handrails, shelves, and shower hooks and 2x10 backing for the flip down seat.

Use non-solvent based construction adhesive. For installation over tile, use 100% silicone sealant.
