Custom Solutions

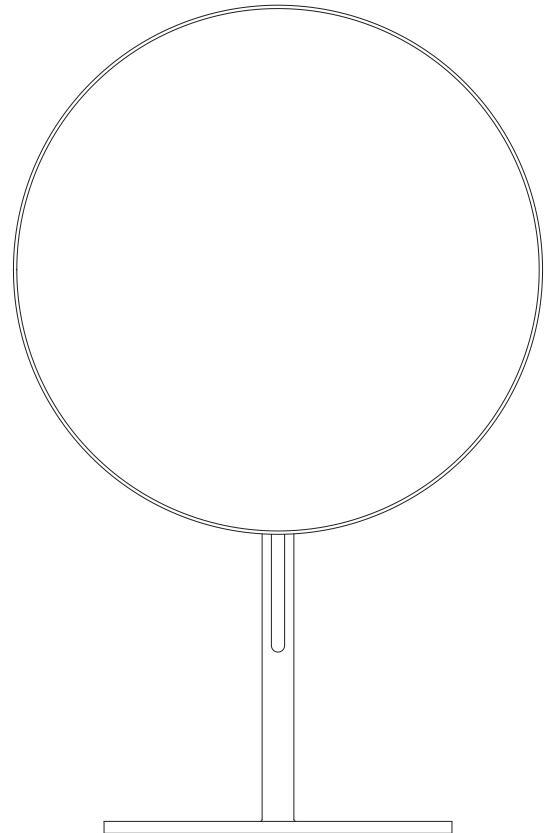

If project design requires a product outside of our offering, semi-custom solutions are available. Contact us at custom@robern.com for more information.

Care and Maintenance

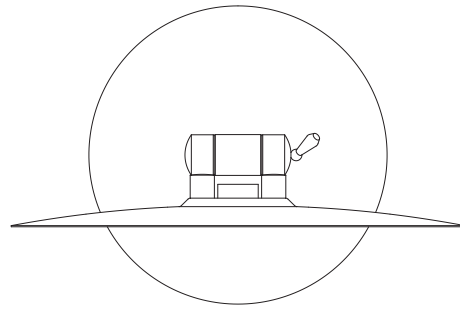

Use only a damp cloth to clean. Ammonia or vinegar-based cleaners can damage mirrors. A 50/50 solution of water and isopropyl alcohol is recommended for cleaning the mirrors. When cleaning, spray the cloth, not the mirror or surround surfaces. Do not use abrasive cleansers on any part of the magnification mirror.
