

Applicable Models

- 12RES
- 14RESA (120 and 240 Volts)
- 14RESAL
- 20RESC (120 and 240 Volts)
- 20RESCL
- 20RESD
- 24/30RCL
- 38/48/60RCL
- 38RCLB
- 48RCLB
- 60RCLA
- 80- 100ERESD
- 125- 150ERESC

Description

The battery heater kit includes a battery heating wrap to help increase the battery temperature in cold climates. The battery heater is connected to a thermostat for controlled heating. When temperatures fall below 16°C (60°F), the thermostat turns the heater on, maintaining optimum battery temperature. The thermostat turns the heater off at 27°C (80°F).

Battery heater kits are recommended for generators installed in regions where the temperature regularly falls below 0°C (32°F).

Note: Battery is not included with heater kit.
